

Last of a Kind – 23.3 Hectares in Hout Bay

A once-in-a-lifetime chance to own the single largest remaining property in Hout Bay—23.376 hectares of pristine, north-facing land. Positioned on the Overkloof mountain range this rare land holding lies directly opposite Orange Kloof, one of Cape Town's most pristine nature reserves. Own your own forest beneath your own mountain, with uninterrupted views of Table Mountain's forested back table, cascading ravines, and seasonal waterfalls. This is the last untouched land of its kind in this highly sought-after suburb. The estate includes four stand-alone, north-facing houses, all fully serviced and connected via a well-established internal road. On your doorstep: Chapman's Peak, Llandudno Beach, wine farms, world-class dining, hiking, equestrian pursuits, fishing, sailing, and Hout Bay's working harbour. Just 20 minutes from Cape Town's vibrant city centre. Nothing compares—this is truly the last of its kind.
